DECISION

The Transport Authority (hereinafter referred to as the "**Authority**") as the competent public administration body and safety authority in matters of airways and designated technical facilities and designated activities pursuant to the provisions of Section 101(b) and Section 103(2)(b) of Act No. 513/2009 Coll. on Railways and on Amendments and Supplements to Certain Acts, as amended (hereinafter referred to as the "**Railways Act**"), pursuant to Section 17(4) of the Railways Act and in accordance with Section 46 of Act No. 71/1967 Coll. on Administrative Procedure (the Code of Administrative Procedure), as amended (hereinafter referred to as the "**Code of Administrative Procedure**"):

Issues

AUTHORISATION

For the installation, maintenance, inspection and testing of designated technical pressure equipment

Registration number: **T – 12/2026**

for

Business name: **Rail Workshop, s. r. o.**

Registered office: **Šalviová 878/40, 821 01 Bratislava – town section Ružinov**

BIN: **52961711**

Validity of authorisation: **Until 01 September 2029**

Conditions of validity of the authorisation:

This authorisation applies to the **installation, maintenance, inspection and testing of designated technical pressure equipment** (hereinafter referred to as "DTE") pursuant to Section 17(1)(a) of the Railways Act and pursuant to Decree of the Ministry of Transport, Posts, and Telecommunications of the Slovak Republic No. 205/2010 Coll. on Designated Technical Equipment and Designated Activities and Activities on Designated Technical Equipment, as amended (hereinafter referred to as "**Decree No. 205/2010 Coll**."), in the scope of:

a) T3 - Air reservoirs of rail-bound traction units, rack machines.
b) T4 - Air reservoirs of towed rail vehicles.
c) T5 - Stable pressure vessels which are part of the equipment of railway.

Installation – the basic assembly of individual components of newly supplied or refurbished pressure equipment.

Maintenance – activities aimed at maintaining or restoring the equipment to a condition in which it can perform its intended function (see STN EN 13306:2018).

Inspections – inspection activities in accordance with current legislation (Decree No. 205/2010 Coll.).

Testing – testing of equipment in accordance with the relevant instructions issued by the manufacturer and other documents.

Address of the premises where the requested activities are carried out:
Rail Workshop, s. r. o., Koľajná 7683, 831 06 Bratislava – Rača.

The following conditions must be met for activities carried out under this Authorisation:

1. All provisions of the standards, legal regulations and technical rules applicable to this activity must be complied with during the activities under this Authorisation.

2. The Designated activities must be carried out by employees who are professionally qualified to carry out activities on the Designated Technical Equipment in accordance with Section 18 of the Railways Act and Section 29(c) of Decree No. 205/2010 Coll.

3. Activities carried out in cooperation with other entities shall only be accepted from natural or legal persons authorised to carry out the designated activities in accordance with Section 17(2) of the Railways Act.

4. Continuous monitoring and record-keeping of the work carried out shall be ensured, and the prescribed documentation shall be maintained.

5. The performance of the designated activities shall be ensured in accordance with the findings of the assessment of the legal entity's professional competence and the conditions for carrying out the designated activities.

6. Notify the safety authority of any changes to the circumstances that were decisive for the issue of the authorisation within 15 days of the date on which the changes occurred.

If the safety authority finds any serious deficiencies in the performance of the designated activities which may affect the safety of operation of the designated technical pressure equipment or the safety of the operation of the railways or of transport on the railways, or finds non-compliance with the conditions of the authorisation, the safety authority shall initiate proceedings to limit the scope of the authorisation or to revoke it.

G r o u n d s

On 23 July 2026, the authorised company, AVDOP s. r. o., Milana Marečka 5, 841 08 Bratislava (hereinafter referred to as the "**applicant**"), submitted an application for authorisation to perform designated activities on designated technical pressure equipment, to which inspection report No. 005/2026/AVDOP-So/T/PO dated 21 July 2026 was attached on the verification of compliance with the requirements for the performance of designated activities under the Railways Act, carried out by the authorised legal entity AVDOP s. r. o., Bratislava. The application was registered under number 54923/2026 and filed under file No. 25322/2026/OUTZ-0001. Upon receipt of the application, administrative proceedings were initiated for the issuance of an authorisation to perform designated activities pursuant to Section 17(4) of the Railways Act. The application contained the following annexes:

1. Power of attorney of AVDOP s. r. o., Milana Marečka 5, 841 08 Bratislava, BIN: 46252975 provided by Rail Workshop, s. r. o., Šalviová 878/40, 821 01 Bratislava – town section Ružinov, BIN: 52961711, to act on its behalf in submitting the application and throughout the proceedings for the purpose of obtaining authorisation to carry out designated activities at the Transport Authority.
2. Inspection Report No. 005/2026/AVDOP-So/T/PO dated 21 July 2026, drawn up by the authorised legal entity AVDOP s. r. o., Bratislava.
3. Annex to Inspection Report No. 005/2026/AVDOP-So/T/PO, which contains the copies of the individual documents referred to in the inspection report (application for verification of compliance with the requirements for carrying out designated activities, a copy of an entry in the Commercial Register, Authorisation No. T-11/2023 issued by the Authority, Certificate of Conformity for maintenance functions, ISO 9001:2016, ISO 14001:2016, ISO 4501:2024 certificates, the SM-3 management system manual, the guidelines for the technical inspection of pressure equipment, the company's organisational rules, the certificate of the inspection technician issued by the Authority, and a list of technical equipment.

Since the applicant filed the application electronically and thereby met the conditions for a reduction in the administrative fee rate, pursuant to Section 6(2) of Act of the National Council of the Slovak Republic No. 145/1995 Coll. on Administrative Fees, as amended (hereinafter referred to as the "**Administrative Fees Act**"), the administrative fee under Item 203(a) of the Schedule of Administrative Fees of the Administrative Fees Act, in the amount of €200, was reduced by €50. An administrative fee in the amount of €150 was paid on 31 August 2026 via eKolok for the issuance of an authorisation under special regulations to perform designated activities involving designated technical equipment on railways by the applicant, thereby fulfilling their obligation to pay in full.

The Authority reviewed the documents submitted and found that the applicant had submitted all the necessary documents, thereby fulfilling the conditions for the issuance of an authorisation to perform the designated activities, and therefore decided as stated in the statements of the law contained in the decision.

A d v i c e

An appeal may be lodged against this decision with the Transport Authority, M. R. Stefanik Airport, 823 05 Bratislava, within 15 days of delivery in accordance with Section 111(3) of the Railways Act. A timely appeal has suspensive effects.

Ing. Ivan Škoda, EUR ING, MBA
Director of the Railways and Rail Transport Division
